### CONVALESCENTS

Those Recovering from Any Severe Illness

After a long wasting illness, convalescents require nourishing food that will not overtax the digestive functions—and in the way of a strength-restoring and vitality-making tonic, we know of nothing that equals Vinol, our delicious cod liver and iron tonic (without oil).

Vinol creates an appetite, re-establishes good digestion and helps the daily food to make rich blood, form flesh, strong muscles and impart new life and vitality to every organ in the body. We ask those who need a strength and flesh-building tonic restorative to call at our store and get a bottle of Vinol, with the understanding that if it does not help them we will refund their money without question.

G. L. Penny, Stanford, Ky.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Sent for list of testimonials.
